ENVIROMENTAL & SUSTAINABILITY POLICY STATEMENT

Laminating Technology Limited is committed to attaining leadership in its core business of manufacture of MFC products to the kitchen, bedroom and bathroom sector.

Our Environmental & Sustainability Policy Statement defines our commitment to sustainable development in our manufacturing, procurement activities and to responsible purchasing.

Laminating Technology Limited will :

- Continue to recycle 100% of our wood waste using our biomass boiler system. This fully heats our factories with low carbon renewable heating.
- Comply with FSC® standards to demonstrate our commitment to ensure MFC is sourced from responsibly managed forests that meet the highest environmental and social standards.
- When choosing suppliers ensure that their environmental policies and performances is a key factor.
- Work with our suppliers towards mutually agreed, sustainable goals and standards. Aiming to improve sustainability and reduce the environmental impacts of products and services, work towards developing sustainable products where possible and to improve overall performance.
- Consider suitable alternatives, such as recycled and refurbished products in relation to conventional ones. Choosing environmentally friendly alternatives to where possible.
- Promote awareness of our environmental and sustainable responsibilities in all activities to the staff of Laminating Technology Limited.

This policy will be reviewed on an annual basis and be reported to all Directors.
